

46. A graphical user interface for a data processing system in which interactive visual displays employed by the user interface are generated by the method of Claim 6.

47. A graphical user interface for a data processing system in which interactive visual displays employed by the user interface are generated by the method of Claim 12.

48. A hardware device for storage encoding a digital document processing system as claimed in claim 16.—

REMARKS

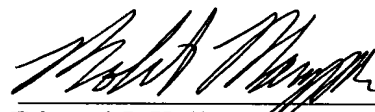

The amendments presented above are not narrowing. The amendments merely address informalities in claim dependency and are offered to conform the claims as filed to the requirements of the U.S. Patent and Trademark Office. If there are any other fees due in connection with the filing of this response, please charge the fees to our Deposit Account No. 18-1945.

Respectfully submitted,

ROPES & GRAY LLP
